

Tinley Park-Park District 2022-23 Budget Summary

The 2022-2023 budget is \$13,883,447 which is approximately a 5.6% decrease from the previous year. The 2020 EAV (Equalized Assessed Valuation) is \$1,487,420,919 which is a 9.28% increase from the previous year. The 2022-2023 operating budget is \$10,011,948 which is 6.6% lower than last year. The decrease is driven mainly by a \$1M reduction in budgeted bond expenses. The prior year's budget, 2021-2022, was prepared under the premise that both the 2020 and 2021 Bond Sales of \$1M each would be expensed in the 2021-2022 budget year. It was subsequently determined that the 2021 Bond Sale of \$1M would be expensed in the 2022-2023 budget year that carried over an extra year.

While we appear to be coming out of Covid it still had a major impact on the district again last year. We anticipate that the impact may continue to be felt for some years to come if mitigation orders are continually implemented and removed. The constant changes creates the uncertainty to those signing up for programs and memberships.

Staffing is the next biggest issue we have been and will continue to deal with overall. The State of Illinois instituted a mandatory minimum wage by 2025 of \$15 an hour. While we are only at \$12 this year it has continued to play havoc on our compression with in salary ranges and existing staff. We were able to take a step to relieve some of that with the salary range adjustment in Dec of 2021 that will continue to be an area of concern for the next couple of cycles as well.

While at least two areas of agency have seen a return or exceeding pre-covid revenue much of the agency operations are still attempting to return to those levels. White Water Canyon Water Park saw the best revenue year ever in 2021-22 and hope to continue that this coming year. The

Tinley Junction Mini-Golf and Batting cages have also returned but keep in mind that both of these areas are concentrated on summer months of operation and many are outdoors not indoors.

Other areas in the district have had success but with restrictions the return to numbers hasn't been as easily reached. Many of these numbers are related to activities that take place indoor and during the winter months which have been the points at which covid has become a major area of restrictions set on the district operations by both the county and state. Areas like the fitness center and indoor programming have suffered due to this.

In 2022-23 we anticipate a continued improvement on the numbers for much of the agency operations. As we begin to learn to live with covid the hope is restrictions will be limited to only those extreme issues and not just blanketed regularly. We are dealing with a new issue, inflation, which is going to be continue to play with the program/membership numbers as bank accounts get tighter. It will be incumbent on the district staff to keep spending under the same constraints as we have for many years.

Corporate 01

The overall corporate fund increased by 6% compared to 2021-2022 budget numbers. Significant changes to the line items are as follows:

General & Administrative Section

Total General & Administrative Section increased by 9% in 2022-23 budget. There are two areas to point out that are driving this increase. The first is the personnel cost increases due to the minimum wage impact on the agencies positions. The second is the addition of a marketing line item in the corporate fund.

Personnel Services continue to grow as expected since the minimum wage continue to climb to \$15 by 2025. While we have many minimum wage jobs the combination of the minimum increase and inflation have created a perfect storm for all levels of employees. Currently we are required to be at \$12 an hour for all minimum wage jobs throughout the district. Since the movement of minimum wage 3 years ago we have continued to deal with compression pressure in many of our agency jobs. Staff have continued to monitor and make adjustment recommendations as we did in December of 2021.

The second area driving the increase is the addition of a marketing line items account number 6062 Marketing/Advert. The corporate fund didn't have a marketing line item so we added one for the purpose of overall agency marketing like a new website which benefits the entire agency.

Maintenance and Improvement Section

The Maintenance and Improvement Section is growing by 5% this year. The biggest jump will be in service contracts account 5203 Service Contracts. The majority of this change is the new requirements for IT items related to cybersecurity insurance requirement. That totals approximately \$170,000 from a budget standpoint.

Capital Improvements are always fluctuating from year to year. The total cost of capital in the corporate fund has come down 10% this year compared to the previous year. Account 5300 Vehicle/Equipment Purchase includes the purchases to replace the sweeper, chipper, tractors, and a utility vehicle in parks. It also includes TBRC media upgrades for the board room, rental rooms, and exercise rooms as well as server upgrades. Account 5302 Site Improvements includes various projects that include concrete work, lighting control system upgrades, as well as asphalt and sealcoating work around the district.

Recreation Fund 02

The recreation fund will remain static for this budget year compared to 2021-2022. The fund is where the majority of our recreation program budget exists. Programs like tot time, athletics, senior, performing arts, day camp, special events and so forth are located in this budget fund. While the recreation fund is considerably subject to participation swings as we saw during Covid we do anticipate a general return to pre-Covid numbers moving forward. When participation swings occur that effects revenue and expenses generally similarly. Significant changes to the line items are as follows:

Personnel Services will remain static this year. This has been accomplished with less staff doing more generally as well as budgeting more exactly based on past trends. As an example we conservatively budget each year, expenses are calculated high and revenue low, and as we continue to put data in each year we can zero in on the more realistic numbers. 4023 Tot-Time Instructors has a 15% increase due to wage changes over the last few years. 4025 Customer Service Attendant decrease by 15% based on the last 4 years data and total expensed since 2018. This was the same with Accounts 4036 Athletic Program Wages and 4037 Umpire/Officials.

Contractual Services generally remain static as well. While certain account have climbed other have declined which level things out from a general cost standpoint. 5025 Event Services has an 8% increase mainly due to additional trips being added this year compared to previous years. Account 6002 Printing services increases by 16% due to the cost of printing going up moving forward.

Capital Improvement have a 1% increase but include the replacement of Phase 2 of the skate park and door system upgrades at Vogt Woods Recreation Building.

McCarthy Concession Fund 03 (Tinley Junction)

Tinley Junction has a 25% budget increase in 2022-23. The majority of the cost increase is in both capital accounts and special events account.

This year we return to the entire payment of the 4th of July fireworks which come out of the Junction. Last year we only had to pay 50% of the fireworks cost since we didn't hold them in 2020 due to covid restrictions.

The largest share of this increase come from the capital investments being requested which \$34,000 higher than last year. This is being driven by staff requests to replace batting cage items, the storage shed, and add additional amenities to the area.

Fitness Center Fund 04

One of the biggest impacts of Covid occurred with the fitness center. The fitness center pre-covid hovered around 5,000 members but since has only recovered to just over 3,000 members. Staff is anticipating a loss but will control that by monitoring staffing and continued marketing campaigns to bring membership up.

This budget cycle the budget was cut by 14% compared to 2021-22. Staff has continued to find savings wherever they can. We are still operating on the wait and see approach to capital investment in general from this fund we do have upcoming items that need to be addressed like the end of the lease on our cardio equipment and whether we lease new equipment or continue to use the existing equipment for another year or so.

Similar to other funds we were able to zero in on some staffing cost in many areas. Overall Personnel cost have decreased by 14% this year and we will continue to hold schedules as we have the past 2 years. We have yet to make a decision on if or when childcare would come back and that represents an expense that will certainly be trimmed this year.

From a capital standpoint staff is still looking to purchase new strength equipment for \$155,000 but that will be dependent on the revenue numbers as the year progresses. We ultimately cut 29% of the budget from the capital accounts for the current year. Some of the items cut involved general expenditures and projects that can wait for us to continue to recover our membership.

IMRF Fund 06

The IMRF fund has 4% increase from 2021-22 budget. We have added two full-time position from the previous year's budget (aquatics coordinator and assistant athletics staffer) that will undoubtedly have an impact on our budget climbing in this area.

Liability Insurance Fund 07

The liability fund has a 6% decrease compared to 2021-22 which is a direct result of the Covid-19 pandemic and hour reductions during the course of the year. While we thought this fund would return to normal this budget cycle it is clear that covid is still having an impact on staffing levels which is a direct impact on liability insurance via workers comp.

Special Recreation Fund 08

The special recreation fund has a 12% decrease compared to 2021-22. We removed the typical playground replacement from this budget as we have already gotten that completed within the Volunteer Park Renovation project. The removal of that one line item accounts for all of the drop in this fund but will most likely return in 2023-24.

Social Security Fund 09

The Social Security fund is static for 2022-23. With the increases in minimum wage and adjustments to the salary ranges we do anticipate this fund to increase for the upcoming years.

Museum Fund 10

The museum fund is projected to decrease by 12% in 2022-23. This is primarily removing wish list items from capital accounts as well as honing in on more consistent utility costs.

Security Fund 11

The security fund has remained static this year in comparison to last year. Personnel costs have climbed slightly within the fund as wages have increased and will continue to grow over the next couple of years.

Working Cash Fund 12

Similar to last year this fund remains the same.

Bond & Interest Fund 13

As detailed in the beginning of this report, the Bond and Interest Fund budget decreased \$1M which basically reallocated the planned \$2M bonds to be paid over 2 Budget years.

Capital Improvement Fund 14

In 2022- 2023 we are still awaiting the final payout of St. Boniface Park (\$200,000) which was submitted in June of 2021. We again anticipate to sell annual bonds in the fall as planned to continue to provide capital revenue for the district.

This upcoming budget cycle we are planning to complete the Volunteer Park OSLAD (Open Space Land Acquisition and Development) Grant in May. We also plan to replace the turf at Freedom Park in the fall of 2022 as it has been in place since 2007 and is showing its age.

Water Park Fund 15

White Water Canyon Water Park had the most successful year from a gross revenue standpoint in 2021-22. The season opened up with Covid-19 restrictions being lessened. The budget process for the 2022-23 included a recognition that the previous year may very well be an outlier and that using numbers prior to Covid would make more budgetary sense. Should 2022-23 look more like the previous year we may very well have a new normal to work with in future years.

As with all other funds the largest drivers of the budget at the water park are consistent minimum wage increases to all positions. The water park primary staff is made up of seasonal staff members who are either attending high school or college.

The other driver is the capital accounts in which work has been included that has been put off for the last few years. Items like water slide restoration and controller upgrades for the facility. As is always the case we will make these adjustments as needed and will be dependent on how the season turns out.
