

Tinley Park-Park District 2023-2024 Budget Summary

The 2023-2024 budget is \$ \$13,304,750 which is approximately a 4.17% decrease from the previous year. The 2021 EAV (Equalized Assessed Valuation) is \$1,389,787,771 which is a 6.56% decrease from the previous year. The 2023-2024 operating budget is \$9,535,785 which is 4.8% lower than last year.

It is extremely important to also understand that the Park District is in the process of attempting to acquire the property at the northwest corner of Harlem Avenue and 183rd Street, the former site of the Mental Health Facility. This property is approximately 270 acres and at this time of budgeting we are unclear of a price and a timeline to acquire the property. Therefore, to be responsible with the budget we have left the line item associated with this acquisition off at this time until it becomes clear in both financial scope and time.

Now that covid restrictions have been lifted and hopefully not returning the Park District has seen a resurgence to pre-covid building numbers for attendance. This has created a promising 2023-2024 budget cycle that will allow for programs to continue to grow and attendance numbers to continue to exceed pre-covid levels.

Labor costs are by far the single largest expense at the district as is the case in most organizations. The State of Illinois instituted a mandatory minimum wage by 2025 of \$15 an hour. While we are only at \$13 this year it has continued to play havoc on our compression within salary ranges and existing staff. We continue to make adjustments to ranges and wages annually and that will continue until the 2025 fiscal year when the new state minimum wage is reached.

As a final note, this budget is intended to be interpreted as a roadmap of plans with financial dollars in the course of the fiscal year. Items contained within are planned to be complete when possible and appropriate. Some items within may not be completed for many various reasons.

Corporate 01

The overall corporate fund increased by 7% compared to 2022-2023 budget numbers. Significant changes to the line items are as follows:

Wages, Benefits, and Staff Development

Wages, Benefits, and Staff Development has decreased by 13% in 2023-24 budget. The largest reason for this decrease is an adjustment to the maintenance department wages which have been budgeted higher than expected for the last couple of years. Similarly, the adjustment of the wages of the office staff both full and part-time amongst the funds.

Service Contracts

Service contracts continue to grow as additional needs for IT are recognized. For example, in 2023-24 we needed to move from the old digital phone system we have used for years to a more modern system via Microsoft Teams. Additionally, security features and upgrades associated with our insurance carrier requirements have put additional annual costs in place in this specific area.

Program/Events

The increase in Program/Events is the cost of the PR Firm the Park District has hired in 2023-24. We continue to plan to upgrade our website this cycle as well.

Utilities

We continue to see a reduction in utilities as we become more efficient with everything from lighting and other building automation systems around the district.

Maintenance

Our maintenance costs have risen by 13% but we have also moved all of the gasoline cost from all funds to fund 1 for ease of tracking. There is a continued increase in fuel cost we will continue to be affected by since we are no longer on the locked into a contract with the Village of Tinley Park.

Capital & Equipment

The Capital and Equipment section of the budget has a 22% increase driven heavily by the regular requirement for IT updates and upgrades to the equipment. Additional drivers of this increase are the replacement of player benches around the district along with equipment replacements at Sutter playground. As a reminder items throughout the capital categories as well as most other categories aren't guaranteed to be done in the course of a fiscal year.

Recreation Fund 02

The recreation fund will see the largest decrease of any of our funds from a year-to-year comparison. This fund houses the majority of the recreation services that the district has in place during the course of a year. Programs like tot time, athletics, senior, performing arts, day camp, special events and so forth are located in this budget fund. While the recreation department has continued to ramp up over the years, we have decreased certain fund line items this cycle. Significant changes are as follows:

Wages, Benefits, and Staff Development

Wages, Benefits, and Staff Development have decreased by 13% in 2023-24 budget. The largest reason for this decrease is an adjustment to the maintenance department wages which have been coming in under budget for the last couple of years.

Program/Events

Program/Events is one of two major areas of adjustments referenced in the overall fund description above. All of the reductions in the cost of this area of Fund 2 are associated with programs coming in under budget on the expense side of the equation.

Utilities

We continue to see a reduction in utilities as we become more efficient with everything from lighting and other building automation systems around the district.

Maintenance

As mentioned in the previous fund we moved the gasoline line item from this budget to simplify tracking.

Capital & Equipment

In the 2022-2023 cycle we had the skatepark phase 2 project in the budget which was completed and reduced this funds capital cost this cycle.

McCarthy Concession Fund 03 (Tinley Junction)

Tinley Junction has a 20% budget decrease in 2023-24. Two primary drivers of this decrease are the reduction in the capital expenses and removal of 4th of July expenses/revenue. In 2023-2024, the capital infrastructure projects in the previous budget to repair infrastructure were completed and no longer needed in this budget. Additionally, the 4th of July expenses that are typically in place in this fund have been removed from the budget overall with the Village of Tinley Park taking over that event.

Fitness Center Fund 04

The fitness center fund has a decrease of 13% in expenses compared to the previous cycle. Fund highlights are the following:

Wages, Benefits, and Staff Development

Wages, benefits, and staff development costs have leveled out as we have continued to improve on staffing levels as well as increases in memberships. Staff will continue to monitor the levels to ensure efficiency whenever possible.

Utilities-has a 30% decrease as previously stated with the improvement of building automation and energy efficiency. We should start to see this level back over the next few cycles.

Capital & Equipment-the 2023-2024 has a 44% reduction in the area of capital investment. The major reason is the major investment in the prior cycle to purchase new strength equipment which was completed. There are no major capital items purchases planned for the current cycle other than the lease payments on the cardio equipment which has been reduced compared to previous periods.

IMRF Fund 06

The IMRF fund is static from the last year's budget. Additionally, our funding rate has continued to decrease each year based on the actuarial calculations which while increases in wages occur the funding rate has come down.

Liability Insurance Fund 07

The liability fund has a 13% increase for the upcoming year. Insurance costs have continued to rise each year for all areas of the economy, which is no different for the public sector side.

Special Recreation Fund 08

The special recreation fund has a 12% increase compared to last years budget. The biggest reason for the increase is one line item and that is Park/Play Equipment, which has almost a \$100,000 increase. That increase is associated with the possible replacement of the Centennial Park Fitness Zone in this cycle.

Social Security Fund 09

The Social Security fund is static for 2023-2024. With the increases in minimum wage and adjustments to the salary ranges we do anticipate this fund to increase for the upcoming years.

Museum Fund 10

The museum fund is projected to be static for the 2023-2024 cycle. Some of the highlights from the budget are the planned replacement of the lift at the VVAC as well as tuckpointing for both VVAC and Landmark Church.

Security Fund 11

The security fund has an 8% increase in expenses for this cycle. The increase is due to the plan to replace Mobile 10 this cycle.

Working Cash Fund 12

Similar to last year this fund remains the same.

Bond & Interest Fund 13

The bond and interest fund will continue to be static as we sell bonds annually for the capital needs of the district.

Capital Improvement Fund 14

In 2023-2024 we will be working toward the final stages of the Buedingen Park Renovation project which was an OSLAD (Open Space Land Acquisition and Development) Grant which is our third in a row from IDNR (Illinois Department of Natural Resource). We are working toward construction drawings and permitting with plans to bid the project in the fall of 2023.

We are also planning a coating system on the roof that is used to avoid a complete tear off and replace. We will get the same warranty as a new roof without having to replace the entire roof at a third of the cost of the traditional tear off and replace.

We again anticipate selling annual bonds in the fall as planned to continue to provide capital revenue for the district.

Water Park Fund 15

In 2022-2023 the What Water Canyon Water Park had another successful year but more typical to pre-Covid.

We expect 2023-2024 to look more on par with the previous cycle again. The expense budget is expected to grow by 7% driven primarily by the capital accounts.

The capital accounts are the primary driver of the increase as we continue to improve and replace 21 new infrastructure work. As an example, we still plan to add VFD's (Variable Frequency Drives) to the existing pumps to make them more efficient and reduce the cost of operations. Other items like pool grate replacement, river buckets, fence work, are other items that are relatively expensive.

Each year the capital expense with the water park will always be the primary driver of fluctuations in the over budget for Fund 15. The facility is over 20 years old and will continue to be repaired and upgraded each cycle.

A couple of other highlights are that pool chemical costs continue to rise as the cost of everything around the country will climb. Another area of increase is the cost associated with water for the pool.

*The Park District adopted a fund balance policy starting with the 2023-2024 budget cycle. Therefore, the beginning balances reflect the approximate estimated fund balance as for March 1, 2023. Previous budget cycles fund balance number was a portion of the fund balance available and were simply the difference between expenses and revenue sides of the budget to zero them out at year's end.

Tinley Park-Park District
